# The Heart and Soul of Kiski

**DEAR KISKI COMMUNITY,** I'm filled with a profound sense of gratitude. It's with mixed emotions that I prepare to conclude my work at Kiski at the end of this school year after 22 years as Head of School and a total of 28 years living and working on this campus. The memories, experiences, and relationships formed during my time here have been the most rewarding of my life.

But I know the main thing on everyone's mind, including my own, is our recent announcement that Kiski will begin enrolling girls starting next fall.

Feedback from many people after the announcement was, "We get it. Kiski had to adopt co-education to survive. But why did the news come as a surprise?" That's a legitimate criticism. The answer is simple: We did a poor job of communicating with you about the process in real-time. And I'm very sorry about that.

But now, as we embark on this transition, I'd like to focus on what I believe are the two defining qualities of a Kiski education—the heart and soul of our school.

**First, we remain a school that specializes in teaching boys.** I've been an

outspoken advocate for boys' education throughout my career. I've worked to offer solutions to the "boy crisis" in American education, where young men in classrooms all over the country are marginalized and cast off as hopeless. In my writings and messaging, I've been careful not to identify all-boys schools as the only remedy, recognizing that the single-sex model is one which most families won't even consider. The real solution is to provide teachers with the tools and training they need to properly support the boys in their care.

As we transition to co-ed, we will offer professional development training for our faculty on best practices for teaching girls. At the same time, we will continue to polish our boy-teaching skills, as we always have. The "bonds of brotherhood" that many of you experienced here will remain intact in many all-boys settings that will be preserved—in the dorms, on our playing fields, and in our small faculty-led advisory groups for example. Because of our history, Kiski is uniquely positioned as a school that will continue to support the learning needs of boys in co-ed classrooms.

**Second, strong relationships and meaningful bonds between faculty and students remain at the core of our mission.** The faces have changed from one decade to another, but the profile of a Kiski faculty member has endured: someone who is willing to share their life with their students and to guide and support them in the classroom, on our playing fields, in our dorms, and beyond. They hold their students to high standards; they push them relentlessly to become the best versions of themselves; they celebrate their accomplishments and help them get back up when they fall. Our faculty always has been and always will be the backbone of our school.

We recently completed an oral history project. We're very grateful that our alumni recorded 419 stories, all of which have been transcribed. One common interview prompt was "What made Kiski special?" Of all the responses, only six people mentioned some version of all-boys or single-sex. Of those, four were positive as in, "I loved the all-boys environment." And two were negative as in, "I would never send my son to an all-boys school." So what did almost

## *What makes Kiski special? People. Relationships with teachers and coaches and dorm parents and classmates – that's what makes Kiski special.*

everyone say in response to “What made Kiski special?” People. They talked about their relationships with teachers and coaches and dorm parents and classmates. That’s what made Kiski special. The responses credited the Kiski legends who shaped their lives—Pidgeon, Zeigler, Brett, Vlahos, DiOrio, Ballard, Johnston, Szilagyi, Botti, Turley, Nanney, Lane, Crawford, Kozub, Lombardo, Meehl, Stokes, Bower, Orsatti, McAtee, Yoder, Muffley, Shepard, Muster, Beebe, Poston, Spahn, Scott, Ross, Kwiatek, Kapustik, and many others.

Some call this “relational teaching.” And no school does it better than Kiski. Sixty percent of our faculty have taught at Kiski for 15 years or more. And seventy percent have taught in co-ed classrooms. Why would anyone conclude that the same dedicated teachers who have been capably supporting their boy-students for so many years would now be unable to offer the same level of support for both boys and girls?

I understand the emotional impact of the co-ed decision. Some alumni have said they will be proud to send their daughters and granddaughters to their

alma mater. Others are understandably angry and struggling with the idea of Kiski with girls. I sincerely hope that time will mend those wounds, and I’m committed to spending the remainder of my time here working on that.

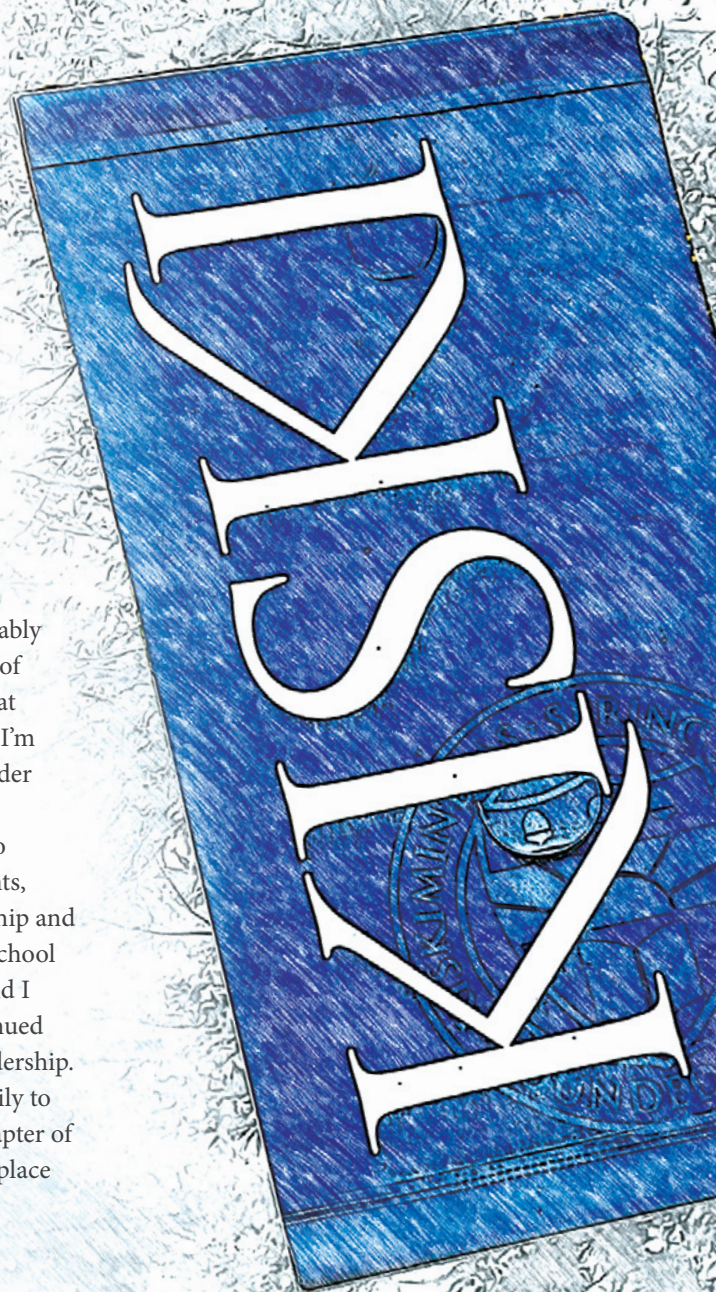

I extend my deepest gratitude to all of you—alumni, students, parents, faculty, and staff—for your friendship and support. Serving as your Head of School has been an incredible privilege, and I am excited to witness Kiski’s continued growth and success under new leadership.

Thank you for allowing my family to be part of the Kiski family. This chapter of our lives will always hold a special place in our hearts.

With all good wishes,

Chris Brueningsen  
Head of School

*Each Kiski year is special and—like the boys themselves—unique. There are traditional features that echo familiarity, including the ceremonies that punctuate the final week of the academic calendar. However, the students celebrated during those festivities have added something distinct to Kiski lore as individuals and as a community. Those contributions and superlative achievements are honored during the final week.*

## HONORS CONVOCATION

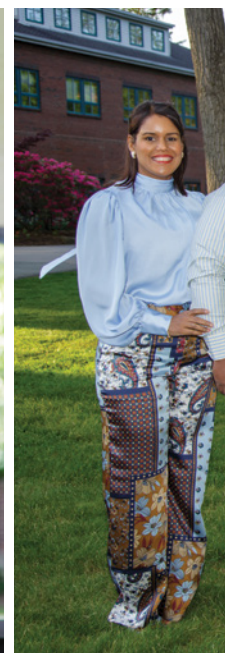

Kiski gathers as a full community throughout the year. Assemblies, morning meetings, fine arts performances, and athletics unite the campus as a whole. One of these occasions is the Honors Convocation ceremony, held before a week of final exams that ends with a focus on the graduating class.

This is a time to reflect on the contributions of the underclassmen before they begin trickling off campus following the completion of their final commitments of the school year. In between individual awards, speakers shared their ruminations, starting this year with student speaker **Ian Bigler '23**.

Ian began by sharing that, “The average person makes 35,000 decisions every single day.” From there he disclosed his personal observations of how *not* to make a good decision: “to simply *not* think...to always choose whatever is most convenient,” and “to make no decision at all.” He challenged the audience to instead, “take calculated risks...do something...and then commit to your decisions.”

Director of Studies **Mr. Brendan Moriarty '86** cautioned against overreliance on a new program that helps its users to avoid decisions and work, Chat GPT. He made a strong argument for treating Chat GPT as a useful tool, but to avoid trading important lessons and growth for the ease of its use. “It might help you focus—in detail—on your strengths and weaknesses. But it could not do the honest work of coming to terms with those strengths and weaknesses, of acknowledging where you really are—even if it made you unhappy—so you could work and make genuine progress,” he warned.

← A gathering of “four-year freaks” (left to right) Lachlan McKlveen, Ben Feinstein, Ian Bigler, Sulayman Bah, Jude Gardner and Luo Cheng Liu gathering under the beauty of a beaming sun shining on the Class of 1959 Overlook.

“Ultimately the academic work you have done here in your classes have been part of the broader product of a Kiski education. We hope this is an education that helps you to know your individual strengths and weaknesses, helping you to become a contributing member of a broader community, thoughtful and considerate of others, a good citizen in a turbulent world. We also hope that this has been an education that helps you to think creatively and honestly about yourself, the world around you, and the roles you might eventually play.”

After the final award was announced and the boys were dismissed, the boys faced the last of their 35,000 decisions for that day. We hope that they prioritized their exam preparation, but also that they made the most of the waning time with their dorm mates, teammates, classmates, and friends.

## SENIOR AWARDS CEREMONY

With final exams completed and dorm rooms partially packed for departure following the commencement ceremonies the next morning, the seniors gathered on the Yukevich Quad with their parents, friends, and faculty. The last individual awards of the academic year were bestowed upon deserving seniors along with some parting advice.

Parent speaker **Mrs. Wendy Feinstein P'23** extended heartfelt gratitude as a “formerly skeptical Kiski parent” nervous about leaving “her baby” on the Saltsburg campus. She thanked the faculty for looking after Ben, keeping her and other parents updated as the boys grew to appreciate the independence of a boarding school environment, and cultivating their abilities.

She also shared deep appreciation with her fellow parents saying, “I’m so grateful that you trusted this place, especially those of you from all over the world, from outside of Pennsylvania. You trusted

this beautiful campus in the middle of Nowhere, Pennsylvania with your sons. Thank you for that, because without your boys, Kiski would not be as special.”

She saved her final thanks for the boys. “You all have become like family. You’ve pushed each other to be better, better students, better athletes, better people. I’ve been amazed by your friendly competition and by your support for one another. Wherever life takes you. I hope you’ll make it a little like Kiski.”

Faculty speaker **Mr. David “Bo” Buran** spoke on behalf of his colleagues sharing that, “People here don’t have a job. It’s a way of life, it’s like a calling that all revolves around you boys. We are all so excited for you right now, about where you are, and about where you’re heading.”

His advice emphasized all that the boys learned about themselves, the talents and interests they honed in and beyond the classroom. “I’m not going to tell you to follow your passion. Take it with you.

Take your passion with you,” he implored.

Head of School **Mr. Chris Brueningsen** encouraged the Class of 2023 to take along the lessons—some hard—that they earned at Kiski. “In your time here you have had a chance to practice habits of good decision making. You’ve also faced challenges and made some mistakes, but you’ve learned from them. You have the power to shape your future through the choices you make. Embrace your values. Surround yourself with positive influences and prioritize your wellbeing. Trust your instincts and seek advice and guidance from trusted friends and mentors and remember that each choice you make is a stepping stone towards your future. So choose wisely and let your decisions reflect the person you want to be.”

The young men in the Class of 2023 were dismissed to their final evening as Kiski students, but they will forever be Kiski Boys.

# KISKI'S 135<sup>TH</sup> COMMENCEMENT CEREMONY

The Paradise Hall Bell Tower rang once for each senior from the Class of 2023. Once the bell tolled its final time, the bagpipes filled the silence, leading the faculty and seniors to the Yukevich Quad. As the boys took their seats, their anticipation was palpable. They were about to fulfill their final duty as students.

Head Prefect **Sulayman Bah** was welcomed to the podium to share his remarks, which began with some of his fondest Kiski memories. He recalled that among his first recollections of Kiski was that it reminded his father of his small village in The Gambia, comically including its lack of Uber service to help him home after dropping off his son. Sulayman mentioned that to this day his father still asks about **Mrs. Ugoletti**, who was kind enough to drive him to his next destination that day.

Sulayman recalled the excitement of attending the soccer team's come-from-behind state championship victory, and struggling alongside his classmates with **Mr. Moriarty's '86** "impossible" physics

class. So much of what he recounted could be found in earlier volumes of Kiski's bulletins, yearbooks and the Kiski News. Although these memories were unique in their details to the Class of 2023, they are familiar echoes that reverberate through Kiski's history like bell tolls across a campus.

He ended with one final echo saying, "The most *Kiski-thing* about Kiski is something I call the Kiski grit. The willingness to improve ourselves, to win the day, to be 1% better. If you're looking for inspiration, look no farther than your neighbor. Being surrounded by people that are high-achievers is what makes this process possible. And in the past four years, I have been motivated to go above and beyond by you, my peers."

Valedictorian **Ben Feinstein** used an unexpected memory to highlight what made Kiski special to him. Rather than sharing from his experience as a three-time state soccer champion, he began, "I'm going to talk about my short-lived career as a freshman basketball player."

"I went from competing and beating top prep schools from across the north east with the soccer team, to getting 30-pieced by random schools down the road. We were likely one of the worst teams to ever put on a Kiski uniform. We haven't even had freshman basketball since then. I think we genuinely ended the program," Ben confessed.

When the laughter subsided, Ben said, "We never got remotely close to winning a game, but I remember being strangely proud at the end of the season despite this. To me, my freshman basketball career is one in a set of countless experiences that perfectly demonstrates the essence of Kiski. We're not afraid to go out of our comfort zone, try new things, take on challenges."

"We all found our place within this environment and along the way bettered ourselves. We put on our coat and tie and we go to work every single day. It is truly special that we have been treated to an environment that allows these ideals to flourish. For that, all my classmates and I have every single faculty member, administrator and fellow student to thank," Ben concluded.

The Class of 2023 left the ceremony with their diplomas and all of their unique Kiski memories. They were wished the best by faculty lining the sidewalk as they exited the event. The anticipation for their graduation was replaced by a desire to hear of their next accomplishments, and to welcome them back as alumni. ♣

# Kiski Soccer Captures Third Consecutive State Title

Like all of our athletic programs, Kiski Soccer focuses on nurturing a championship culture. A third straight state championship is an outward measure of what the student-athletes and coaches have dedicated themselves to in each facet of training and competition. As exciting as the latest championship game was, the work to sustain a culture never ends, and that work isn't focused on final scores or records.

For **Head Coach Jonty Loukes**, the core of that culture starts with three non-negotiables: work hard, be coachable, and be respectful. The team isn't building on wins; it's building on established leadership that fosters new leaders to ascend into roles vacated by graduation.

"We used [the COVID year of 2020-2021 when the team was mostly competing against itself] to focus on expanding a leadership group that extended beyond simply naming captains. It extended to juniors that could step up into that role," said Loukes.

The result was a 2021-2022 team that was well-prepared to defend its 2019-2020 title—not just by physical training, but by leaders who would hold their teammates to the standards they established.

**Sebastian Valdez '22**, **Alessandro Forero '22**, and **Robbie Stroebel '22** were born of that crucible. "The second championship relied on that leadership, and policing each other," said Coach Loukes. That may be why that team

looked unshaken, staring into the face of elimination during the semifinal game of their championship run. Down a goal late, they fought back to tie and looked unshaken by the intensity of a shootout.

"The problem is, how do you replace that," mused Coach Loukes. For the 2022-2023 title, **Ben Feinstein '23**, **Josue de Leon Sabala '23**, and **Jose Cifuentes '23** stepped into that void. Like before, their teammates also leveled up their collective share of leadership responsibilities.

"For 2022 [the 2022-2023 season], we graduated five starters. We needed a couple of pieces to finish the team, but it felt like it was the same team," said Loukes.

The battle-tested Cougars helped the team to a third consecutive championship

game against Phelps School, which was anchored by their prolific scorer, Collins Oduro.

The game plan was to limit Oduro's touches by double-teaming him and limiting risky plays, considering his

game-changing ability when afforded even a single touch. The other tactic against the "long-ball team" was to opt to play into the wind during the first half, weather the storm, and attack relentlessly in the second half.

Although they were down 0-1, panic wasn't present in the halftime huddle, just leadership. Oduro found a loose ball in the opening half and converted the sole tally, but Coach Loukes encouraged the team to stick to the game plan. Kiski would use the wind—now at their backs—and wear them down.

With fifteen minutes remaining, the Cougars had more than their share of scoring chances, but no goals. Coach Loukes increased the attacking pressure with a formation change that included more attackers and enhanced their strength in attacking from wide areas. The bombardment yielded a corner kick shortly after the adjustment. **Antonio Correa '24** scored on a set piece. The Cougar's faith was rewarded. However, the game would require extra time to reach its conclusion.

Kiski chose to stay with the wind in overtime. **Adrian Alvarez '24** scored the

go-ahead goal on a cross from Josue de Leon Sabala. The Kiski fans were elated, but both overtime frames needed to be played in their entirety. The Cougars would have to hold the lead.

Kiski reverted to a defensive formation to seal the victory. Notably, a key part of the defensive squad was Josue, who agreed to play out of position for the final two games of the season, and his Kiski career. He embraced sacrificing his scoring opportunities to work within an unrelenting—championship—defense. It was fitting that he still factored in the game-winning strike. Cougar culture prevailed again.

### → COACHING UPDATE

*Coach Jonty Loukes has assumed a new role as Director of Soccer for Kiski. As an Assistant Director of Admissions, he is uniquely positioned to welcome girls to Kiski and work with the Girls Soccer program to establish their foundation with similar cultural tenants entrusted to a trailblazing group of new Cougars. These are indeed exciting times for Kiski Soccer.*

# COUGAR ATHLETICS HIGHLIGHTS

In addition to capturing the 250<sup>th</sup> win for the lacrosse program, all under the direction of **Head Coach Chris Spahn**, the Cougars placed several players on All-League teams.

1<sup>st</sup> Team: **Seven Gillingham '23, Lowen Martin '24, Zach Tucker '24, Jack Williams '24.** 2<sup>nd</sup> Team: **Dylan Lee '23, Wyatt Wiggins '23, Conner Meeks-Vaughn '24, Killian Misisit '24.** Honorable Mention: **Andy Scott '24, Ryan Miele '24.**

The lacrosse program continues to fill its schedule with games against nationally ranked opponents and regional lacrosse powers. They placed third in the league's championship "A-bracket."

Soccer standout **Ben Feinstein '23** was nominated for PA Gatorade Player of the Year and was also selected for the All-American game.

↑ The lacrosse team crowds around the Centennial Cup following their cup-capturing win over Mercersburg.

**Aiden Roe '23** placed fourth at the Prep Nationals Wrestling Tournament. **Sulayman Bah '23** placed eighth. In doing so, both secured All-America status.

The Hockey team ended their rivalry series with Western Reserve Academy with their 24<sup>th</sup> victory in 35 contests. The Cougar composure was tested as WRA racked up penalty minutes, turning a tight game into a 7-3 rout. **Assistant Coach Lance Holupka** preached that approach as the best revenge for the major penalties Kiski endured. Sadly, WRA discontinued their hockey program after the 2022-2023 season.

### CLYDE SLEASE TEACHING PRIZE

Created by **Mr. Clyde H. Slease III '62** in appreciation for the dedicated teachers who touched his life while he was a Kiski student, this is an award that is given to a faculty member, who in the opinion of his or her colleagues made a significant impact on the boys he or she teaches through creative and innovative pedagogical practices, solid knowledge

of subject matter and sincere interest in the students. This year's winner was **Mr. Brendan Moriarty '86**, our Director of Studies and member of the science faculty. "Throughout his tenure here, Mr. Moriarty has demonstrated a profound devotion to his alma mater, his colleagues, and most of all his students. In the classroom, he is completely invested in challenging the boys in his classes to grow and guiding them towards a deeper understanding of themselves, each other, and the world around them," said Head of School **Mr. Chris Brueningsen** during the Honors Convocation ceremony.

## Professional Development

The Kiski faculty continually sharpens their skills and obtains new knowledge through their sustained commitment to self-improvement.

Science faculty member **Mr. Mike Solominsky** completed his Masters in Educational Leadership and Management program at Fitchburg State University.

The Pennsylvania Association of Independent Schools Emerging Leaders Conference was attended by science faculty member **Mr. Mike Solominsky**, Director of Student Life and history faculty member **Mr. TJ Stock '04**, and Associate Director of College Counseling **Mr. Jon Shelton**. This was a year-long conference that met once a month and was designed to provide an understanding of how to be an effective leader at a private school. It covered topics like leadership styles, working through conflict, and managing team members, while also looking at the various challenges and daily tasks addressed by school leaders.

Fine Arts faculty member **Mrs. Patricia Argyros P'96** attended a weekly

year-round painting workshop. An accomplished local painter leads the workshop, **Ms. Nina Stalzburg**. Painters chose their own subject and medium. Two of Patty's paintings were accepted into the "From the Earth" show held at the Greensburg Art Center this past fall. Patty's works were also displayed at the Monroeville Library Gallery in April. In addition, she attended a glass mosaic workshop and created a design inside a large wooden bowl.

History teacher **Mr. Vince Kwiatek** attended a collection of one-day Socratic seminars. The first involved a discussion of primary source documents concerning pivotal Supreme Court decisions that changed American History. Another reflected upon social movements in America since the Civil War. A third focused on the topic of Women in American History.

**Mr. Vince Kwiatek** also served as a judge for the junior-level Documentary category submissions for the state finals

## 2023-24 ALL-SCHOOL BOOK

# RA BEGINS

*ki Girls in 2024*

*noticeable shift has been occurring in the Kiski Admissions Office. Prior to technology advancements like FaceTime, a main concern of prospective Kiski parents was the ability to stay connected with their sons while they were away from home at a boarding school. Today, we are hearing another question more often: what opportunities will their sons have to interact with girls while at Kiski? They have expressed concerns that their sons would be behind in their social development after residing at a single-sex school.*

Those parents aren't alone. In 2022, the National Association of Independent Schools (NAIS) reported that of families with a son applying to boarding schools, only 11% would consider all-boys schools. That's down from 20% a few decades ago. Even then, four-fifths of families with boys were disqualifying Kiski from their consideration.

When comparing boarding schools of similar sizes, NAIS data also showed that although Kiski generated 14% more applications than the average boy-only school, Kiski received 37% fewer applications than the average co-ed school. Kiski hasn't just been missing out on exceptionally competitive girl applicants; a large percentage of families with high-achieving boys aren't considering boys-only schools.

Kiski has rebounded from a COVID year that saw enrollment reach a low of 172. But an average enrollment of 190 since that dip is still below Kiski's boarding capacity of 215 and a total enrolment of 250 with an expanded day student program.

The post-pandemic drop in international student enrollment has impacted not only boarding schools but also colleges and universities. Some parents of international students are still expressing reservations about having their children far from home, concerned about the possibility of another global health crisis.

However, a post-COVID average of 85% of our currently enrolled students are receiving some level of tuition assistance.

During that same span, Kiski has awarded over \$5 million in scholarship assistance annually. While in line with our core commitment to enrolling deserving students from all socioeconomic backgrounds, that commitment is not sustainable. Our community has given generously, but expecting annual giving totals that support that formula is not realistic.

To address those concerns, an Enrollment Task Force made up of Board members, senior administrators, and two industry-leading financial consultants was formed in November of 2022 to study Kiski's configuration. A preliminary overview was presented to the Board in February. The Board formally announced that it would undertake a comprehensive assessment of all available options following a second update in June. Those modifications included adding a junior boarding program, merging with another school, reducing enrollment capacity and related school infrastructure and personnel, and opening enrollment to girls. Detailed financial models were created to project the implications of change over the years ahead.

The board's unanimous decision was announced on October 4<sup>th</sup>. Kiski will enroll girls beginning with the 2024-2025 school year.

While this is a departure from our seminal 136-year-old tradition, it is a decision that will allow Kiski to celebrate 136 more years of success in its worthy cause. The mission to prepare students to succeed in college and in life lives on

in this new chapter. An unparalleled life-changing educational experience fueled by a remarkable community persists.

We are looking forward to welcoming bright and talented young ladies to join our accomplished but small group of faculty-daughter alumnae. We are also grateful that Kiski will embark upon this new direction from a position of strength. At a time when many private schools are struggling and sadly

***Kiski hasn't just been missing out on exceptionally competitive girl applicants;***

closing their doors, we have positioned Kiski to pivot to align with the demands of the boarding school market.

Your generosity has allowed us to invite Kiski students from the deepest and most competitive roster of applicants in recent memory by including both girls and boys who wouldn't have applied to Kiski otherwise. This change will also allow us to draw top-tier students from a significantly broader pool of applicants, ensuring the preservation of Kiski's high academic standards moving forward. They will be welcomed to a campus that—in spite of all of the resources that

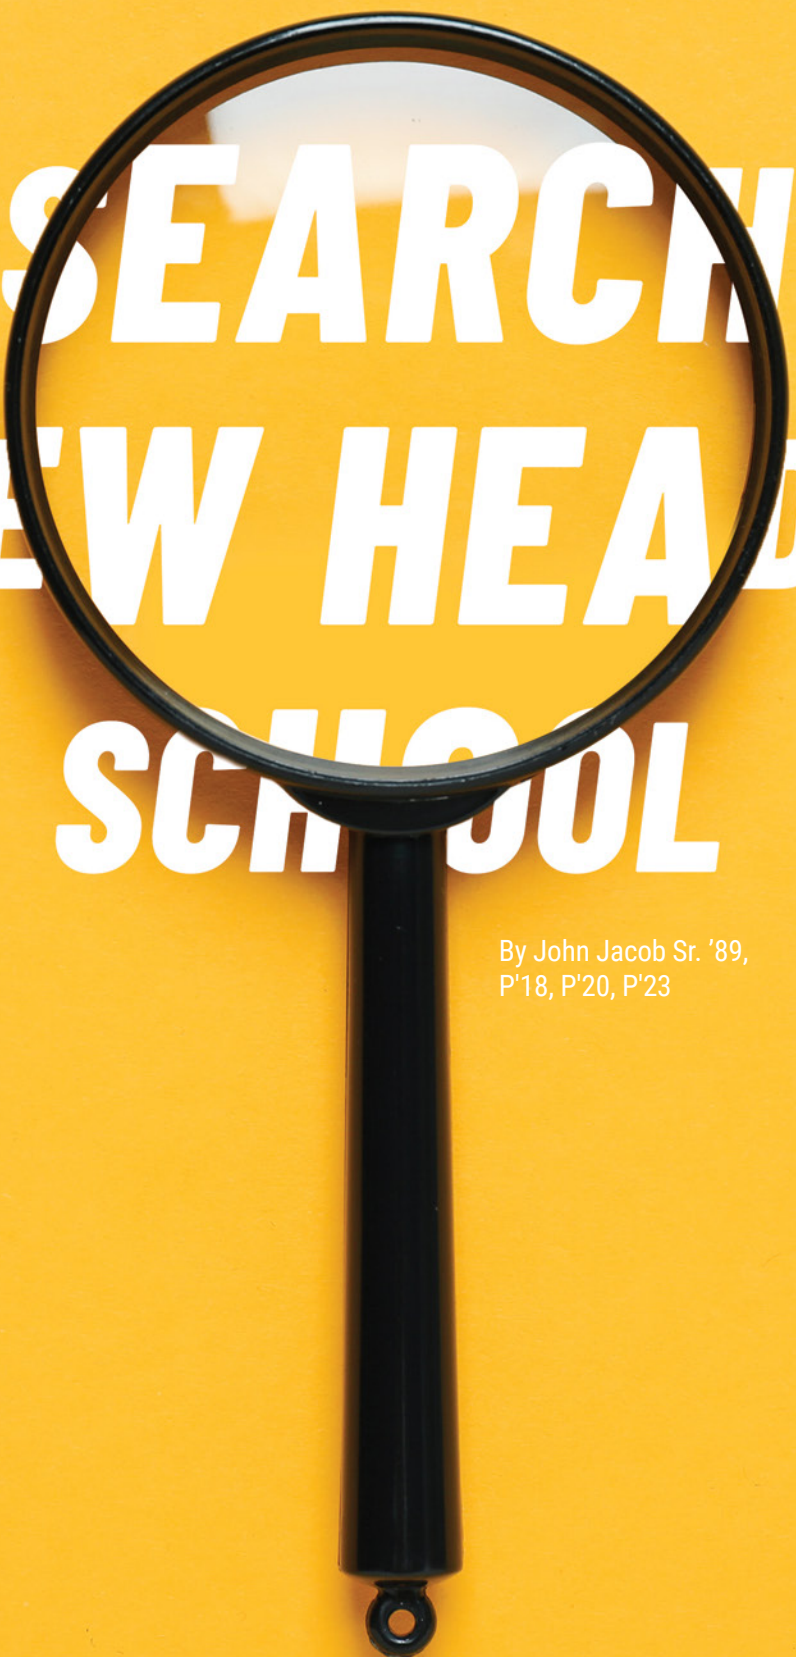

have recently been dedicated to scholarship assistance—has seen successive waves of renovations and expansions.

We are excited to welcome a pioneering group of Kiski Girls to campus next fall, and to celebrate with you as they partner with our Kiski Boys for new victories in and beyond the classroom. In order to share the preparations being made to adjust for this change, a listing of frequently asked questions and answers is available at [Kiski.org/faq](https://kiski.org/faq), that includes details like our plans to add a Dean of Girls to our staff and hold faculty training sessions to assist with our transition to co-education.

***a large percentage of families with high-achieving boys aren't considering boys-only schools.***

As always, we welcome your recommendations for potential Kiski students, perhaps girls and perhaps boys from families that previously expressed a preference for a co-ed school.

Together, we will welcome girls to the Kiski Family: A New Era Begins. ♦

# **THE SEARCH FOR A NEW HEAD OF SCHOOL**

By John Jacob Sr. '89,  
P'18, P'20, P'23

**THE GREEK PHILOSOPHER HERACLITUS** is credited with the idea that the only constant in life is change. Only fragments of his writings remain, one in which he says: Everything changes and nothing remains still; and you cannot step twice into the same stream. No matter when one graduated Kiski, it is highly likely that change in faculty and with classmates was experienced during one's time at the school.

Kiski has been fortunate to have numerous iconic leaders who have taught, coached, and mentored so many generations of Kiski students. In our boarding school environment, each day was filled with opportunities for them to offer thoughtful advice, the reinforcement of traditional standards, extra help with a tough class assignment, and encouragement in all areas that pushed us forward toward our greatest potential. I recall as a student (and experienced the same through all three of my sons' Kiski experiences) the feeling that when a faculty member did not return from one year to the next, the impending change would forever change the school. As I reflect on such changes, I think that perspective is correct.

Next school year, we will be welcoming a new Head of School. This will be the eighth Head of School since Kiski was founded in 1888. The historic long tenure of the current and previous Heads of School amplifies the perspective that Kiski will be somehow different with the retirement of Christopher Brueningsen. Again, I believe this to be correct.

Chris's leadership set a tone of high expectations and a methodical approach to all he has done and continues to do. Students all enjoy spending time with Mr. "B." Like the Heads before him, Christopher Brueningsen will be profoundly missed.

Chris Brueningsen had enormous "shoes to fill" with the retirement of Jack Pidgeon. Next year's new Head of School will also have a tall task in front of them. Although Kiski will be somewhat different with new leadership, Kiski will continue to do for returning and new students what it has done best since 1888: providing a college preparatory curriculum, a dynamic and motivating environment, and experiences for personal growth. ♦

*It is the charge of the Board of Trustees to find our next school leader. We are actively engaged in this most important work. The successful candidate for Head of School at Kiski will ideally be:*

- ➔ A dynamic leader with significant and management experience, preferably in a school setting, coupled with demonstrated team-building skills and a collaborative style.
- ➔ Experienced in strategic thinking and planning and the effective implementation of plans leading to successful outcomes.
- ➔ A leader with deep experience in and knowledge of a 9-PG boarding school, including an understanding of residential life and advisory programming and curriculum.
- ➔ Able to marshal resources for the school through relationship building, exemplary constituent relations, compelling communications, effective fundraising, and an understanding of and experience with enrollment management.
- ➔ Warm, approachable, and highly visible in the school community.
- ➔ A great communicator and listener who is ready and eager to be the chief storyteller for an extraordinary school.

# BRIAN KAPUSTIK

(1974 – 2022)

**By Brad and Vince Kwiatek**

Lifelong friends and later colleagues of Brian's at both Valley Forge and Kiski.

*Excellent teaching is an art. It takes years of dedicated practice, fine-tuning, and growth through trial and error by the practitioner to achieve excellence. Hours of preparation mixed with some boldness, pedagogical talent, knowledge, and dedication come together to produce an outstanding teacher. At Kiski, we have enjoyed the blessings of many superb teachers over the years. This section of the Bulletin is dedicated to honoring excellent Kiski teachers, our Luminaries. In this space, we remember teachers who shared their brilliance and enlightened generations of Kiski Boys.*

## LUMINARY: A CELESTIAL BODY THAT GIVES OFF LIGHT?

Yeah, that sounds about right. Having been asked to honor Brian J. Kapustik, we immediately saw the power of the metaphor. The Kapustiks and the Kwiateks grew up two streets apart in Lower Burrell, and Brian was happy to be able to stay close to his family and friends in Western Pennsylvania when he settled at Kiski.

He knew early that he wanted to be an educator, and he received his degree in Secondary Education and Theater from Clarion University in 1997. A teaching position took him to Harrisburg where he met Judy McAtee, and he began his life at Kiski in 2002. During his tenure, he proposed to the love of his life, Chantel Blose. They were engaged and later married, on stage at the school. Together they helped to set the tone of the school with their love for education, for Kiski Students, and for one another. For more than twenty years Brian, or Kapoo, shared his light with the students and faculty of the school.

It isn't difficult to recall the impact that Brian had on the lives of so many. One just needs to watch the two-hour memorial service that was held in Rogers Auditorium where friends, alumni, and colleagues took the stage to share with the packed house what it meant to be in Brian's orbit. The stories that were told made vivid Brian's presence felt in love, respect, and humor.

Brian came to Kiski as a Theatre teacher living in Rees Hall, but, as is the way at Kiski, within days he was living in Clark Hall and teaching English as well as Theatre. The image of Brian, standing at six and a half feet tall, carrying his couch balanced carefully on his head as he moved into Clark Hall made quite an impression on everyone on campus. Likewise, watching a small army of freshman students trying in vain to topple a laughing Brian during a snowball fight cemented his persona as someone equally as strong of body as of heart.

In Heath Hall Brian's unique eye for detail was the center of a classroom that mixed academic experience with real-world consequences. Yes, *Macbeth* was an intricate play with layered characters that demanded to be studied, but to Brian, it was also a roadmap for discussion about friends, enemies, and choices. His sophomores found in the play a litmus test of character and leadership, and Brian showed them how Shakespeare's "big ideas" were simply the shadows of their own lives at Kiski. In his classroom, everyone was important, and everyone's ideas were worth hearing. He carefully nurtured the classroom as an inviting space for students to take chances, and he taught the importance

***“At the beginning of each year, the freshmen would take a trip to the Conemaugh Dam to make friends and play goofy games. After the games, Brian would gather everyone and explain that they also came to the dam because the water behind it was like each of them. It held great potential to effect change but only when harnessed and focused.”***

of respect. Christian McCague said that Brian “made you feel like you were all going to be okay.”

But it was in Rogers where Brian felt most at home. He wrote about the stage as his church, and his reverence for the theatre was clear to each of his students. Starting in high school, Brian found acting to be an outlet for his creativity and enthusiasm. It was also a place to make friends and make people smile. Brian not only loved being on stage to speak, act, or sing but also loved to make others experience the same magic that he felt. Some of the Kiski Players already had a desire to act when they came to Kiski, but Brian was overjoyed when he could introduce a student who never thought of going on stage to acting. His love of theatre was so infectious that once under his direction, the odds were that another show would be in their future.

Brian always wanted to pursue teaching as a profession, but Kiski allowed

him to also make the most of his heart. Kiski boys were family, and Brian did his best to take care of every one of them and courageously guide them on their paths. At the “shaving party” in the freshman dorm early each year, he would shave his beard that he had let grow for most of the summer so that he could teach the boys how to look good without injury. He would also have the boys write letters to themselves that he would keep for four years and return to them at graduation along with a giant hug. At the beginning of each year, the freshmen would take a trip to the Conemaugh Dam to make friends and play goofy games. After the games, Brian would gather everyone and explain that they

also came to the dam because the water behind it was like each of them. It held great potential to effect change but only when harnessed and focused.

Brian’s lessons were embedded in all of his interactions with the students in his care. His time at Kiski was always about the boys. One of the resonating themes at his memorial was that “Mr. K.” wanted everyone to be their honest selves and to take joy in what made them unique or maybe even a little “weird.”

Twenty years of boys went out into the world more confident in themselves because Brian told them that it was okay to just BE. We can’t think of a better legacy for our friend or for Kiski. And it was this light that he gave to everyone in his life that defines a luminary. 🍷

*—2023 Distinguished Alumna Award winner Annie Vlahos-Zachara '82 reflecting upon her 18 years living on Kiski's campus.*

**THE KISKI CAMPUS WAS BROUGHT TO LIFE** by visiting alumni representing various classes from 1959 through 2021. The weekend included many typical activities, like kayaking the Kiskiminetas River, and newer favorites, like the Paint and Sip session on the Old Main porch with Fine and Performing Arts Department faculty member **Patricia Argyros P'96**. We also added Boozy Yoga on the Quad. That will surely be repeated after a group of experienced practitioners happily mixed with adventurous newbies under the direction of certified instructor and Director of Library Services **Leslie Poston P'08**.

Whether under the massive tent covering the Yukevich Quad, at breakfast in the Turley Dining Hall or throughout the campus opened for formal or unstructured touring, memories were being revisited. Classmates connected over rounds of laughter. The Kiski Boys celebrating their golden 50th reunion told one of the funniest stories about how Physics instructor and Kiski legend **Jake Zeigler P'62, P'64, P'69** ran a simple (low-voltage) electrical circuit through **Bill Ley's '73** classroom chair. The faster he

turned the crank, the more Bill began to notice the lightbulb wasn't the only thing being powered in Mr. Zeigler's experiment!

Alumni from different generations swapped stories about—mostly failed—pranks, the evolving campus, and smoking policies. Younger alums were shocked to learn that at one point you could smoke on campus in designated areas if your parents provided permission. Tobacco products could even be purchased at Stapleton's located across from campus, but only if you were on Kiski's approved list!

By the end of the weekend, friends were regretting not making their return to campus sooner. Others pledged to return for their next five-year reunion. Perhaps the boldest claim was made by the Class of 1973. Their representatives vowed to break the 100th reunion attendance record (currently a 36-way tie at zero). We wish them the best in their attempts to overcome aging! In the meantime, we will begin planning the next chance for a Reunion Weekend return, next May 31 – June 2, 2024. ♡

# CAMPUS RENOVATIONS AND UPGRADES

*We are committed to the long-term upkeep of our stunning facilities and welcome opportunities to enhance the inherent appeal of our campus for prospective families and students.*

## McPhail Classroom Center

Phase One renovations were completed for Kiski's main classroom building this summer, named in honor of principal donors **Mary Anne** and **Walter McPhail '51** and their son **James '79**. The first stage included the installation of air conditioning throughout the building, elevating the comfort and conducive learning environment for students and educators alike. The inaugural classroom has also undergone a stunning transformation, providing a glimpse into the exciting upgrades set to unfold in subsequent phases. Phase Two is scheduled to begin next summer with the renovation of the remaining classrooms within the center. In Phase Three during the summer of 2025, the focus will shift to the science labs, where cutting-edge enhancements are in store for the biology and chemistry spaces. The project satisfies the McPhail family's longstanding commitment to making the best environment and resources available to Kiski students. Their previous contribution included pioneering Kiski's student laptop program and fiber-optic infrastructure in 1995. That gift was paired with Walter's prescient implementation advice, which saved Kiski the heavy cost associated with a necessary expansion that Walter predicted.

## Turley Dining Hall

The Turley Dining Hall is receiving a refresh this fall thanks to principal donor **Mr. James Dittkoff**. The aging roof was replaced. The tables were repaired and resurfaced and new chairs allowed us to retire seats worn down by almost fifty years of use. During Thanksgiving break, renovations will continue with the installation of a new ceiling and lighting that will cover the ductwork for the newly installed air-conditioning. We'll look forward to sharing photos of the completed interior via social media.

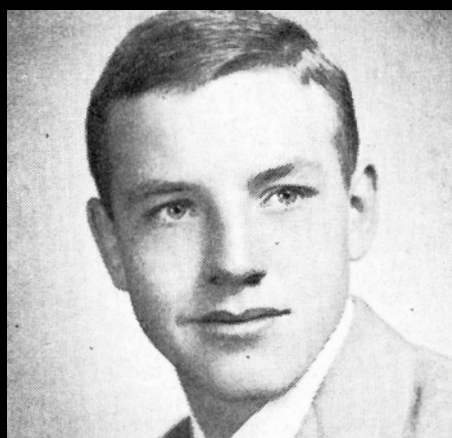

## Kalnow Tennis Courts

Resurfacing, repairing, and repainting the tennis courts brought the space back to life over the summer. Lines for two pickleball courts were also added to match the interests of the boys, faculty and their children, and visiting alumni. **Carl Kalnow '68** may be known for his incredible pitching talents and goaltending prowess as a Kiski Boy, but he has remained a steadfast ally of our tennis program. 🎾

# KISKI'S ATHLETIC HALL OF FAME CLASS OF 2023

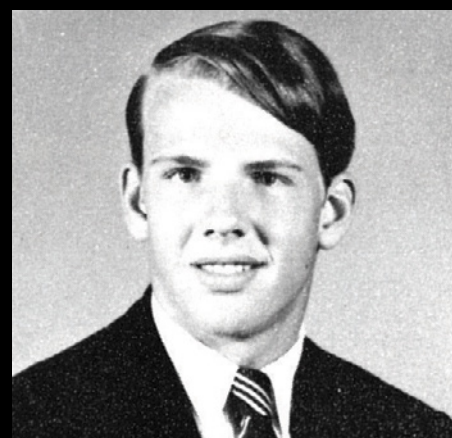

**JOSEPH B. MITINGER**

Joseph Mitinger, Class of 1949, was one of the best linemen in Kiski Football history and an exceptional catcher for the baseball team. His football play earned him a spot on Yale University's team where, as with Kiski, he served as team captain. He earned the prestigious Nils Swede Nelson Award presented by the Gridiron Club of Boston in 1952. Following Yale, he earned his law degree at the University of Pittsburgh, pausing his studies to serve in the Army. He ultimately returned to his hometown of Greensburg where he practiced law and served in leadership roles for multiple charities.

**RENO F. DIORIO**

Reno DiOrío, Class of 1959, lettered in football, baseball and basketball at Kiski. He was a captain for the football and baseball programs his senior year, and continued those leadership duties at Dickinson College for their football team. At Dickinson, he was a four-year starter at quarterback, an All-Division All-Star, and Most Valuable Player. Mr. DiOrío broke several long-standing passing records, was named Dickinson Athlete of the Year in 1963, and named to their Hall of Fame. He returned to Kiski to coach and teach before being appointed Headmaster of Linsly School in 1979.

**CARL F. KALNOW**

Carl Kalnow, Class of 1968, excelled in three sports at Kiski. In the fall, he was an impenetrable soccer goalie, recording five shutouts his senior season. Mr. Kalnow was a sharp-shooter from the outside, while starting for the basketball team. However, he shined brightest on the baseball field where he was a three-year starter. Mr. Kalnow pitched masterfully on the mound, yielding only 12 runs over 59 innings (a 1.83 Earned Run Average) during his junior season. He went on to play soccer and baseball at Muskingum University.

The Hall of Fame honors those alumni, teams and coaches who have made outstanding contributions to Kiski athletics. The nominees exemplify the core values they learned at Kiski: principles of integrity, humility, sportsmanship and service.

#### ELIGIBILITY:

The nominated team or individual must be ten years removed from Kiski. Coaches, posthumous nominees, and benefactors will be inducted at the discretion of the Hall of Fame Induction Committee.

**NOMINATIONS  
DUE BY MARCH 31<sup>st</sup>  
at [kiski.org/hof](http://kiski.org/hof)**

#### 1981 TENNIS TEAM

The 1980-81 Tennis Team was one of the very best in Kiski history and the first half of a two-year streak of dominant Cougar tennis. This group—built around four returning lettermen from the previous season—compiled a 13-3 record, toppling eight teams by 5-0 scores. The highlight of their season was a 4-1 win over a Norwin team that hadn't been beat in the county since 1974 and wouldn't fall again that year. Six of their top eight players would return the next year and build upon this masterful foundation of superlative tennis.

**ATHLETES:** James Bazzone, Anthony Botti, Michael Dowell, Keith Gmitter, George Julien, Alexander Pranis, Donald Santora, Henry Schechter, Robert Sheesley, Maurice Yurick, Michael Yurick

**COACHES:** Jack Pidgeon, John Meehl

#### 1989 TRACK AND FIELD TEAM

The 1988-89 Track and Field Team was the first-ever to capture the Interstate Prep School League Championship in a full team effort that barely unseated the previous champion Western Reserve Academy by a mere 1.5 points. That incredible feat was preceded by a 13-2 regular season in which six Cougars tallied over 100 points. By the end of the season, 11 athletes joined Kiski's All-Time Top-Ten ranks, including the four that blazed a new school record in the 4x100 relay. The Cougars smashed that seven-year-old mark by 0.8 seconds.

**ATHLETES:** Ben Assanasen, Michael Bair, Stephen Ball, Michael Bennett, Steven Berger, Michael Bishop, James Bradley, Lonn Burney, Eric Cutler, James Dellaflora, Joseph D'Ettorre, Patrick DiFilippo, Chris Duplaga, Peter Fabiano, Jack Fuellhart, Christopher Greenebaum, Neil Hart, Aaron Heimberger, John Jessup, Jason John, Jamal Jordan, Richard Karas, Britton Kelly, Richard King, Christopher Kooman, Brian Kotts, Michael Kravetsky, Francis Limcuando, Benjamin Little, Robert Mack, Wayne Mihailov, J. # Kiski Welcomes New Trustees

*David Hitchcock '79, Hal Ostrow '92, & Kris Rockwell '90 Join Board*

Kiski would like to acknowledge **Art Hayes '67** and **Tim Lewis '72** for their service to Kiski as Trustees. Each gave graciously of their time to advance strategic planning on several committees. They also contributed generously to annual and campaign fundraising initiatives.

## Golfing for Scholars

*The 8<sup>th</sup> Annual Kiski School Golf Tournament*

Kiski supporters enjoyed an overcast but pleasant day of golf at The Pittsburgh Field Club in Fox Chapel, PA on Monday, September 25, 2023. Before hitting the course, golfers were given their complimentary gifts and treated to a delicious lunch in the recently renovated club. The competitors took to the challenging course in ideal conditions that resulted in record timing to complete their rounds.

A delectable spread was enjoyed following the competition and cocktail hour. An introduction from Associate Head of School for Institutional Advancement **Steve Szilagyi '88** was followed by a brief state-of-the-school update from Head of School **Chris Brueningsen**.

Board Chair **John Jacob '89** shared a surprise announcement. The crowd cheered the news that an anonymous donor supplied funding for a state-of-the-art golf facility to be installed on the

Kiski campus. In accordance with the secret donor's wishes, the new structure will be named in honor of **Duff '61**, **Colvin '64**, and **Christopher McCrady** for their years of service, advocacy, and sage guidance provided to Kiski.

Following the big reveal, Steve Szilagyi read off the prize winners for the 2023 outing and distributed their awards. Once again, the Board of Trustees generously hosted the annual Kiski Golf Event, and PNC Bank provided the principal sponsorship. That tradition ensures that 100% of the funds raised by Kiski's golf event will be directly applied toward the tuition assistance of deserving families.

# Class Notes

## 1920s

**1** The library received scrapbook, donated by the family of **Wells Kincaid '24** (1924!). He saved everything from letters, report cards, sports programs, dance cards, and more. One funny page was titled "Things Forbidden at Kiski." **2** Another held an article commenting on their five-day canoe trip! That seems like it would qualify as the freedom Wells listed as forbidden. We have seen Kiski scrapbooks of this kind before and now we hold an example to share from Kiski's 36<sup>th</sup> year of existence.

## 1960s

**Roger Sippey '60** retired from his position as CEO of Feralloy Corporation and is now living in Naples, FL, and Cashiers, NC. He has been married to his wife Janet for 58 years! They have four children and seven grandchildren. "My time is spent with our family, playing golf as well as trout fishing in the Smokey Mountains. I continue to stay in touch with several classmates and have fond memories of my three years at Kiski," shared Roger.

**John Ratcliff '62** checked in with his update and unique request: "It's hard to believe that I have turned 80 years old this year. Even though many of my classmates have also surpassed this milestone, and have happily retired, I still continue to work. After living in our home for 52 years, my wife and I have decided to sell our house and downsize. Not being much of a forward thinker, I have no idea where we will go once the house is sold. By chance, does anyone have a nice big backyard where we might pitch a tent for a few months? Just asking..."

**3 Gerald Yukevich '64** (aka: author Ivan Cox) was interviewed by *Avenue 6 Magazine* about his novel *Blood Pudding: Confessions of an Immigrant Boy Pittsburgh 1920*. The book, published in 2021, is based on true stories about his father's gritty childhood growing up on the outskirts of Pittsburgh. "Alas, dear Joe Millar is not around to read it—I think he'd find it 'peckin' fabulous," said "Ivan."

## 1970s

**4 Dave Amrhein '71** is pictured with his family on the main beach in Laguna Beach, CA. "The dark-haired young lady is an Italian exchange student who has since returned to Italy. Roxanne and I moved from Tempe, AZ, after 27 years and relocated to San Juan Capistrano, CA on October 14, 2021. We moved here to be closer to our daughter, Colleen, her husband, Cole, and the adorable Charlie the Dog Face."

**5 Woody Danforth '72** shared that he is, "Retired after 22 years of restaurant ownership and 25 years as a Culinary Arts Instructor. What's next? I have my E-bike, croquet, and my three children close at hand. Blessed!" Woody (second from left) is pictured with (left to right) his wife Ultima, sons Jed and Willy, and daughter Ida Mae.

**6 Scott Miller '73** officially retired in June 2022 after 45 years in the financial services industry. He has been traveling heavily with his 2017 Indian Roadmaster...from his home in CA to Key West, FL...stops in Phoenix and Houston...a week at the national "Sturgis-like" Daytona Bike Week in FL...the actual Sturgis...a ride back to Kiski for his 50<sup>th</sup>...taking the "Mother Road" from Chicago to Santa Monica on Route 66...a trip to Wyoming

for the Badlands, Deadwood, and mountains. In between rides he took a cruise through Alaska, a trip to the Dominican Republic, Cancun, and Cabo San Lucas, Mexico, and a European tour to Majorca, Spain; Zurich, Switzerland; Salzburg, Austria; Stockholm and Gothenburg, Sweden; and Copenhagen, Denmark. In the winter he works at a local ski resort for the free ski pass!

**7** Pickleball anyone? This group of Cougars met for a spring game (left to right): **Xavier Marceau '23, Mario Mangini '72, Jude Gardner '23, and Zachary Silnutzer '24.**

**8 Bill Miller '74 and Rick Hoag '74** paused during their visit to FaceTime classmates. We hope they were making plans to visit for their 50<sup>th</sup> reunion in 2024!

## 1980s

**9 Steve Szilagyi and Paul Bucci**, Kiski Classmates from the Centennial Class of 1988, were able to visit and catch up during the Kiski vs. Hill School lacrosse game held at Kiski.

**10 Phillip DeHaas '80, Peter DeHaas '88, and David Wolf '88** met in State College while in Pennsylvania visiting family. Starting lower left and moving clockwise: David's son **Elliot Wolf**, David Wolf '88, Peter DeHaas '88, Peter and Phil's parents **Ann and Edward DeHaas**, Peter's sons **Hans and Theo**, and Phil DeHaas '80.

**Kenji Hashiguchi '83** recently chose to retire from Nissan Motor Corporation after 19 years of service and is now Co-Managing Director at i2G Capital Partners & Consulting, helping businesses with new technologies and motivating investors to connect.

**Peter DeHaas '88** is still living and working in San Francisco. He is raising three teens and has an adult son living nearby. His partner Kate runs the San Francisco Performing Arts Centers. Peter is still making music locally on a regular basis with his jazz trio. His community benefit organization, The San Francisco Disability Business Alliance, is doing well as it continues to impact the lives of small business owners and future entrepreneurs with disabilities. Peter would be more than happy to meet up with any Kiski alumni living in the Bay Area!

**Joe Bielevicz '89** and his wife, **Chris**, recently relocated from Pittsburgh, PA to Boise, ID. He is working for Boise State University as a Title IX/Compliance Investigator.

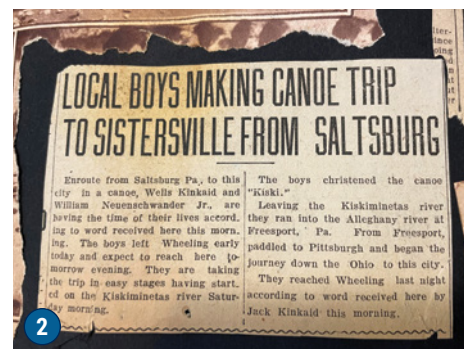

## 1990s

**James Bradley '90** lives in Miramar, FL where he is a psychologist in private practice. His elder son, Graham, recently graduated from the University of Florida, while his younger son graduated from high school and is preparing to attend Bentley University. He and his wife, Rosanna, celebrated their 11<sup>th</sup> anniversary at the end of September by engaging in their favorite joint past-time, fishing on their boat in the Florida Keys. Any classmates visiting South Florida are encouraged to make contact. "It would be great to see my Kiski brothers," said James.

**11 Joe Ott '94** sent in this photo of our new Kiski Ambassadors to Como, Italy, his boys! We love seeing Kiski gear from all over the globe (shameless bookstore plug...and shameless Kiski gear photos request...).

**12 John Boyle's '95** book *Appalachian Kid: How Hope Changed Everything* was released on September 21, 2023. "My book showcases the importance of kindness and mentorship, overcoming adversity and addiction, finding faith, hope, and the desire to help those in need. It's funny, witty, and relevant to anyone who has carried the weight of life's hardships," shared the author. In the words of John's Harvard classmate, Jacqui Spence, "Appalachian Kid is a moving, candid, humorous, and uplifting book that is, ultimately, about what it really means to be a good person. And it's a ripping good read. You'll laugh, you'll cry, you'll be inspired." The story tells of how John's time at Kiski, especially thanks to key legendary Kiski faculty members, helped to shape his life.

**13 Allen Chen '95, John Boyle '95** and John's son **Jack '24** met at Dodger Stadium to see the hometown team topple the visiting Milwaukee Brewers.

# Kiski on the Road

*We were excited to be back on the road meeting with alumni, parents, and friends. The 2023 Kiski Tour made a stop in New York, NY in January and Charleston, SC in April. Both gatherings were well attended.*

At The Penn Club in NYC, Chairman of our Board of Trustees, **John Jacob Sr. '89**, Head of School, **Chris Brueningsen**, and Associate Head of School for Institutional Advancement, **Steve Szilagyi '88**, all shared good, thorough, and exciting news about the School and the generosity of the community behind our successful scholarship campaign. Alumnus, long-time trustee, and Chairman of the School's Endowment Committee, **Carl Kalnow '68**, also attended the special event.

In Charleston, Steve Szilagyi's '88 visit was made possible thanks to the thoughtful planning and generosity

of **Scott Phillips '70**. The group had a wonderful time dining, visiting, and connecting with each other.

We thoroughly enjoy the rare opportunities to gather the Kiski community for in-person updates. The events always produce warm memories that span across all Kiski eras and focus on the Kiski legends who made those memories possible. You are always welcome to visit campus, and we look forward to future travels when we can bring a little bit of Kiski to our friends beyond Saltsburg, PA. ♡

## 15<sup>TH</sup> ANNUAL WILL'S GIFT

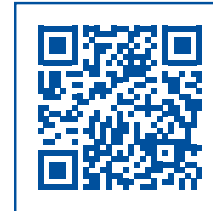

# Rob Larson

**W**ill's Gift is named in honor of **E. William Turley '64**, one of the finest educators in Kiski's history. Although he was not an artist himself in any traditional sense of the word, his 35 years on the campus could be called nothing but a masterpiece. His devotion to his students knew no bounds and he inspired many of them to be, if not artists, then whole and true versions of themselves. His gift was his passion for inquiry, for truth, and for the guts to accept the price of such a pursuit—attributes without which no fine artist can succeed. His gift was this kind of bravery and he gave of it every day.

On behalf of The Kiski School, Will's Gift is given annually to an artist working in Western Pennsylvania. The goal is to assist with the continued health of Pittsburgh's creative community and

to increase and develop Kiski's strong collection in the visual arts. The hope is that the campus itself will become an archive and teaching center, a living and virtual gallery of the region's finest work. "If enough small fires can light an entire community, let Will's Gift be the fuel for one of them," said **David Conrad '85**, co-underwriter of Will's Gift along with **Kristofer Rockwell '90**.

This year's Will's Gift recipient is **Rob Larson**. Larson is a 2000 graduate of the Art Institute of Pittsburgh with a degree in Photography. He is a photographer and visual media artist who creates portraits, landscapes, grand narrative collections and commercial imagery. "He holds down a full-time job as the in-house magic making editor for Rieder Studios but week after week, year after year, for more than 20 years, Rob has

continued his own practice and designed his own projects—often extensive in nature—that quietly make him one of the region's finest cameramen. He restores and burnishes imagery that to most minds would be considered lost or unusable," shared Conrad.

Larson resides in Pittsburgh's West Hills (Moon Township) and has worked with clients such as *O Magazine*, Aramark, RK Mellon, Bayer, UPMC, *Country Living Magazine* and the *New York Post*. ♦

# THANK YOU

---

Dear Friends:

Thank you for joining the 135-year tradition of philanthropy that makes our pursuit of the Kiski mission possible. The core strengths that make Kiski unique exist because of a community of Kiski alumni, parents and friends that are committed to paying their experiences forward for the current generation of Kiski students. We are reminded of this reality as we reflect upon key aspects of the life-changing Kiski education.

Small class sizes are sustained by gifts that help us to remain competitive in hiring and retaining the most talented collection of teachers. That generosity is also converted into professional development education that keeps our faculty on the cutting edge of pedagogical practices.

The boarding atmosphere is sustained by donations that fund building upkeep, and activities enjoyed in day rooms or the Swank Student Center. They also help with special group excursions to the movies, or advisory group meals at local restaurants. Although our rural and secluded setting provides other advantages, the kids still enjoy their adventures off campus.

Making Kiski your charitable priority also helps us pay for journeys in and well beyond the region to compete against the best athletic opponents available. We're not limited to a specific area, which allows us to continue traditional rivalries while adding helpful recruiting exposure for our athletes.

And at the very center of what makes Kiski special is the tuition affordability you create. All of the aforementioned pillars of the Kiski experience are augmented by the ability to welcome deserving students from all over the world and from the full spectrum of socioeconomic backgrounds. Kiski students learn from each other's myriad perspectives and values. They fill their days being influenced by the best of their peers in all phases of boarding school life, whether sharing living spaces or class projects.

The pages ahead list your financial contributions to a winning recipe preserved by generations of charitable giving, specifically made during the most recently concluded fiscal year (July 1, 2022 – June 30, 2023). We are grateful for your support of Kiski's 135th chapter and looking forward to the future you have safeguarded for our School. Thank you!

With all good wishes,

Chris Brueningsen

## THE KISKI SCIENCE TRUST

In 2008, alumnus Elliott B. McConnell Jr. '46, established The Kiski Science Trust. The Kiski Science Trust is an endowed fund to be used for teaching as well as promotion of the sciences at Kiski. The Science Trust has also been generously supported by Harry Seibel '00, Van Messer '69 and Mr. McConnell's family members. The fund benefits the sciences at Kiski by providing annual cash flow to purchase state-of-the-art scientific equipment, attain science-industry guest speakers, and explore the sciences outside of the classroom by allowing the students to attend science-related field trips. Sadly, Mr. McConnell passed in 2018 but his impact on the Kiski Science program will continue. His hope was to help Kiski be nationally recognized for science education. This trust provides an example of ways in which donor support for Kiski enables the School to achieve its goals and maintain excellence in all aspects of the educational experience.

Dear Friends,

We are happy to update you on our **“For the Boys”** campaign aimed at providing student scholarships. We have received over \$3.6 million toward a \$5 million goal in contributions, estate gifts, and grants. We are tremendously grateful for your generous support, which this year enabled us to provide tuition assistance to a record number of students who would not have been able to afford a Kiski education. These campaign funds include contributions received through the Pennsylvania EITC/SPE program for the 2022-23 school year.

In addition, we also greatly appreciate support of The Kiski Fund and other annual giving programs and events which raise unrestricted support for school programs. We are appreciative of all who have donated through these important giving programs.

Despite challenges faced by most boarding schools during the pandemic, Kiski maintained our enrollment thanks to your generosity. While enrollment of full-tuition international students has been greatly impacted, efforts to provide financial assistance, along with our “tuition reset” in 2019, played a significant role in this achievement.

We are implementing strategic initiatives to move into the future with strong enrollment. Kiski is on a positive course to impact more students through financial aid and increased outreach within traditional markets and new areas domestically and internationally to attract both full-pay students and those who may need aid.

In addition, we received leadership support this past school year from alumnus Walter McPhail ’51 and his wife Mary Anne to renovate our main classroom building. The new McPhail Classroom Center will feature state-of-the-art facilities to benefit our students for many years to come.

We appreciate your loyal support of Kiski. We continue to seek scholarship support this coming school year to help deserving students. This support for tuition aid will directly support our students and our important mission.

Thank you again for your dedication.

Sincerely,

Steve Szilagyi ’88, P ’21  
Associate Head of School for Advancement

The following members of our community made campaign contributions to **For the Boys**, supporting scholarships and improvements to our campus since July 1, 2018. EITC gifts made during the **For the Boys** campaign will also be included here.

# HEAD OF SCHOOL CUP COMPETITION (Annual Gifts Only)

Each year, we rely upon our fantastic Class Captains to energize and organize their classmates to come together to support Kiski. The **Head of School Cup** provides recognition to the classes and Class Captains who have made an extraordinary effort to give back to Kiski. The awards for **Most Dollars** and **Most Donors** are given to classes contributing the largest amount and having the highest number of donors to annual giving from July 1, 2022 to June 30, 2023. Likewise, classes have the opportunity to achieve the award for **Highest Percentage of Participation** in the fiscal year. This gives classes that have fewer members a chance to achieve recognition for their efforts. The Highest Percentage of Participation award is a competition for classes with at least ten active classmates.

# REUNION GIVING COMPETITION

(Unrestricted Annual Gifts Only)

Milestone (five-year increment) alumni reunions create an opportunity to reconnect with classmates and your School as well as to build new ties within the Kiski Community. We encourage milestone reunion classes to make a special effort to give back to Kiski by making annual giving gifts (The Kiski Fund and EITC-SPE gifts) in their reunion year. The reunion class with the highest percentage of participation in giving from July 1 through Reunion Weekend is awarded the Reunion Giving Cup and special recognition by the Head of School.

## REUNION GIVING WINNERS

# WHY GIVE TO KISKI?

Perhaps you are an alumnus and would like to contribute to the education of our current class of Kiski students, just as alumni donated to The Kiski Fund when you were a current student. Or, maybe you are a current parent whose gift will support the faculty and programs that make Kiski so special to your family. Maybe you are a "Friend of Kiski" and simply believe in the good work we are doing with kids.

Regardless of your motivation to give, your gift will be greatly appreciated by the boys that receive your support.

YOU MAY THINK...

*The annual fund supports extras the kids don't need.*

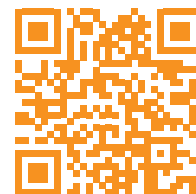

**NOT TRUE!** The annual fund is built into the budget each year and covers expenses that are central to Kiski's unparalleled experience.

YOU MAY THINK...

*I can't to give a lot, so my gift doesn't matter.*

**NOT TRUE!** Gifts of all sizes speak to your belief in a Kiski education. Your healthy participation has helped us to secure large foundation grants because they see your giving as a vote of confidence in Kiski.

You can make a difference in the lives of Kiski students. Scan the QR code to donate today!

YOU MAY THINK...

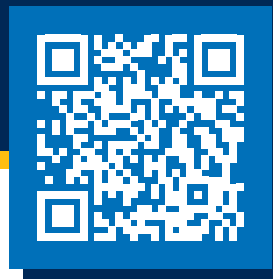

*Kiski has raised millions of dollars in its capital campaign. They don't need my annual giving support too.*

**NOT TRUE!** If Kiski was your house, capital campaigns would cover non-annual expenses like putting on a new roof. The annual fund would cover recurring expenses like electric bills. Even if you need to replace the roof for the long term stability of the house, you still need to pay your electric bill.

# WHAT IS #GIVINGTUESDAY?

Giving Tuesday is a global initiative that encourages support of non-profits on a day of philanthropy that follows Black Friday and Cyber Monday.

On November 29, 2022, the Kiski Community set a new high bar for five participation records. This year, we're looking to break even more with your help.

Visit [www.kiski.org/givingtuesday](http://www.kiski.org/givingtuesday) or scan the QR code to see all of the giving options available.
